UV Big Chip LED
Shown Actual Size!

Luminus, the global leader in Big Chip LED™ technology, brings the advantages of the Big Chip LED platform to a wide variety of UV applications.

Get 11 W optical power with over 10,000 hours of life plus high power efficiency. Available in 385 nm to 405 nm.

The most powerful UV LED solution available for spot-curing, 3-D prototyping, and fiber-coupling applications.
