Luminus Signs Beck as German Distributor

Sunnyvale, Calif., July 20, 2016 - [Luminus, Inc.](http://www.luminus.com), a global manufacturer of high-performance LEDs and solid-state light sources, announced today a distribution agreement with Beck Elektronik GmbH in Germany.

“We are excited to partner with Beck Elektronik in Germany, Austria, and Switzerland, where their strong technical capability and over 90 years of successful history are valued by so many established and emerging lighting customers,” said Mark Pugh, Executive VP of Marketing at Luminus.

“With our long experience in the D-A-CH market region, our customer orientated attitude, highly trained sales organization and professional logistics system in place, we have found with Luminus, Inc. the perfect match. Luminus’ products are uniquely attractive, and together we have the power and capability to galvanize the established market and competition,” states Mr. Alexander Beck, President Beck Elektronik.

About Beck Elektronik:

Founded in 1925, [Beck GmbH & Co. Elektronik Bauelemente KG](http://www.beck-elektronik.de) is a family owned and managed company in the 4th generation of family successors. Beck Elektronik established itself in the market as a highly specialized distributor for electronic components, focusing mainly on opto-electronic and LED-Lighting components, passive components for the automobile industry, displays for industry and Human Machine Interface (HMI) applications. With the Headquarters located in the city of Nuremberg in Germany and having field-sales representatives in the area of D-A-CH and a company branch in Hong Kong, Beck is capable of reaching out to all customers, near and far.
