

PRESS RELEASE

AXELSYS RELEASES CUSTOMIZABLE HIGH LUMENS LED POWER SUPPLY SOLUTION

AXELERATOR™ AXPS3000 DESIGNED FOR HIGH POWER LED LAMP SOURCES

FREMONT, CA – December 12, 2012 – Axelsys LLC, a leading supplier of high quality, low cost Electronic Design Services (EDS), Electronic Manufacturing Services (EMS) and Products & IP solutions, today announced the latest addition to its growing line of Axelerator™ Products and IP – the AXPS3000, High-Lumens LED Lamp power supply unit (PSU).

Developed as a complete system power supply solution, the Axelerator™ AXPS3000 has been designed as a ready Commercial off-the-Shelf-Solution (COTS) or customizable to specific requirements. Integrating a medically certified (IEC60601-1) power supply with High Power LED Driver, the AXPS3000 provides up to 20 AMPS of LED lighting supply current with dimming provided via analog or digital control. Additionally, the unit provides 12V and 5V regulated power for additional system requirements for items such as cooling fans, motors, indicator lights, etc....

To learn more, please go to: <http://www.axelsys.com/products-and-ip/high-lumens-led-power-supply/>.

Ideally suited for applications within the Medical, Industrial and Scientific industries, the AXPS3000 is industry proven with thousands of units integrated into customer products and deployed in the field.

"Axelsys, a Luminus Devices certified solution partner, has developed a wonderfully flexible product for system designers seeking a power and control solution for High-Power LED Lighting", said Chuck DeMilo – Director, Global Product Marketing at Luminus Devices. He goes on to add "Extensively tested with Luminus Devices' CBT line of products, the AXPS3000 is customizable by Axelsys enabling customers to significantly shorten time-to-market and reduce risk with a proven optimized solution."

Axelsys has also developed an IP version, the AXPS3000-IP. This IP version of the power supply allows Axelsys to rapidly deliver customized solutions to meet specific customer requirements. With the AXPS3000-IP, Axelsys is now able to deliver a customized solution in a matter of a few weeks compared to what would normally take several months and tens of thousands of dollars more to develop.

Availability

The AXPS3000-100 is available now for immediate delivery and is aggressively priced for volume production. To learn more, please contact Axelsys.

About Axelsys LLC

Axelsys is a leading Electronic Design Services (EDS) and Electronic Manufacturing Services (EMS) company with offices in Silicon Valley, CA and Shanghai, China.
